Job description

Job Posting: Software Engineer (Dot Net Developer - C-Sharp)

Job Location: Undri, Pune

Work from Office

Company Description:

Daxton IT Services & Solutions PVT LTD is a Pune-based company that offers business automation, software development, and consultation services. Founded in 2013 as a freelancing firm, we have grown into a private limited company, steering customers through the next generation of business innovation powered by technology. We specialize in business automation, software development, and consultation services, aimed at reducing manual effort and increasing accuracy.

Our Expertise:

- **Web-Based Applications:** Delivering tailored web solutions.
- **Automation Solutions:** Optimizing efficiency through innovative tools.
- **Mobile App Design and Development:** Creating powerful mobile applications.
- **BPO & B2B Industry Solutions:** Comprehensive solutions for Business Process Outsourcing and Business-to-Business needs.

Role Description:

We are seeking a talented and experienced Software Engineer to join our team (*Preferably Immediate Joiner to 1 Month*) at Daxton IT Services & Solutions PVT LTD. This is a full-time, on-site role based in Undri, Pune. As a Software Engineer, you will be responsible for developing and maintaining front-end & back-end web applications in Dot Net Core Framework using C-Sharp Language, & Database being MSSQL. Your day-to-day tasks will include software development, programming, and implementing object-oriented programming principles. You will work closely with the Director & development team to ensure high-quality code and efficient application performance.
