DaxtoN

DIPLOMA IN APPLIED IT

FAST TRACK PROGRAM

From Skills to Solutions — Empowering Tomorrow's IT Professionals Today

OUR COURSE

- Programming & OOP Concepts
- Web Development & Database Management
- Frameworks – Laravel & .NET Core
- Advanced Topics & Real-World Development
- Hands-On Live Projects
- Industry Readiness & Final Projects

6 Months Course

SKILL SETS

PHP & C#,
Laravel & Dot Net Framework
MSSQL & MYSQL, ETL &
Data Warehouse
Jquery/Javascript
Power BI

Address: Survey Number :59, Bramha SKYONE, Shop 6, near Orchids The International School Road, Atur Nagar, Undri, Pune, Maharashtra 411060

Daxton IT Services & Solutions PVT LTD

FRAMEWORKS – LARAVEL & .NET CORE

- ☑ Laravel (PHP) – MVC, Routing, Middleware, Authentication
- ☑ .NET Core (C#) – Entity Framework, API Development, Security
- ☑ Database Optimization & Performance Tuning
- ☑ Fundamentals of Hosting & Deployment on Cloud (AWS/Azure/Firebase)

ADVANCED TOPICS & REAL-WORLD DEVELOPMENT

- ☑ Advanced JavaScript
- ☑ Authentication & Security – JWT, OAuth
- ☑ Power BI – Data Visualization, Dashboards, DAX Functions
- ☑ Building Scalable & Secure Applications

HANDS-ON LIVE PROJECTS

- ☑ Project 1: Web App with Laravel & MySQL
- ☑ Project 2: Enterprise App with .NET Core & MSSQL
- ☑ Project 3: Data Analytics Dashboard with Power BI

INDUSTRY READINESS & FINAL PROJECTS

☑ Final Industry-Level Project with Real-Client Requirement

☑ Resume Building & LinkedIn Profile Optimization

☑ Interview Preparation & Mock Interviews

☑ Internship & Certification

WHY THIS COURSE?

🚀 Industry-Relevant Training – Learn PHP, C#, Laravel, .NET, Power BI

⚒ Hands-On Live Projects – Work on Real-World Applications

⬜ Job-Ready Skills – Resume Building & Placement Assistance

This fast-track diploma is designed to get students' jobs ready in just 6 months with intensive practical learning. Would you like to add any special industry collaboration or certifications?

Empowering Your IT Career with Real Value – Why with Daxton?

In the current Pune training ecosystem:

- A **.NET developer course** (covering C# and .NET Core) costs around **₹17,000** to **₹20,000** for live online training.
- A comprehensive **PHP + Laravel course** is priced between **₹30,000-₹40,000**.
- Standalone **Power BI/ETL training** usually costs another **₹15,000-₹35,000**, depending on depth and delivery (estimated).

Altogether, taking these courses separately can easily total **₹90,000 +**, and even then, students often miss out on:

- Integrated, cross-technology learning (full-stack + BI)
- Real-world, client-based project work
- Industry-standard deployment and cloud hosting experience
- End-to-end placement readiness: resume, LinkedIn profile optimization, mock interviews, and internships

---

Why ₹80,000 at Daxton IT Solutions is a Superior Investment

- **Unmatched breadth & depth**: Learn multiple in-demand stacks—PHP/Laravel, C#/.NET Core, JavaScript, databases (MSSQL/MySQL), ETL, Power BI, and cloud deployment (AWS/Azure/Firebase)—all in one program.

- **Advanced features included**: Authentication, security (JWT, OAuth), database optimization, dashboarding, and real-time analytics, which standalone courses typically treat as optional add-ons.

- **Live projects with real-client requirements**: Students don't just practice theory—they complete an industry-level capstone project, ensuring job readiness.

- **Holistic industry preparation**: From resume polishing to LinkedIn optimization and mock interviews, we cover every facet of placement guidance.

- **Condensed 6-month delivery**: Gain comprehensive skills fast—no need to juggle multiple courses across different timelines.

- **Cost efficiency**: Though priced at ₹80,000, students save considerable time, energy, and potentially thousands in separate fees—all while receiving an integrated, career-focused education.

Final Approach

At **Daxton IT Solutions**, we're not just offering training—we're offering a transformative career launchpad. For ₹80,000, students receive:

- A full stack + BI + deployment training package

- Hands-on live and placement-oriented projects

- Career-ready coaching and industry-placement support

- A consolidated, fast-track program that outpaces fragmented, standalone courses in both value and outcome
